Reduce your companies Single Use Plastic consumption with one simple change...

...switch from disposable plastic cups to bottles today and not only will you reduce your Plastic Waste but you’ll save money in the long run!

In the UK it is estimated in 2014 we produced 4.9 MILLION TONNES of plastic waste & that figure is potentially set to rise to 6.3 MILLION TONNES by 2030.

* Source: Calculations from a report for WWF
Virgin Money are committed to being carbon neutral by 2030. Part of this commitment involves removing single use plastic from their facilities and driving a significant culture change.

Office Depot has an established relationship with Virgin Money and, through our regular account reviews, discussions were held on how we could support their commitment to change, with one of the obvious practical solutions being the provision of reusable cups and bottles.

So far we have supplied 3,300 of each product to Virgin Money, providing one of each for every member of staff.
Why not go for metal...

600ml Stainless Steel Bottle
• Stainless steel bottle with push/pull sipper covered by removable cap
• Printed full colour

750ml Stainless Steel Bottle
• Stainless steel bottle with integrated drinking straw
• Printed full colour

500ml Double Walled Bottle
• Stainless steel inner and outer wall
• Available in
  - Black
  - Orange
  - Yellow
  - Light Blue
  - Dark Blue
• Printed 1 colour

Case Study
Here at Vital Communications we pride ourselves on leading by example.

With the global issue of plastic pollution, we as an organisation have committed to removing single use plastic from our offices.

We initially established there were a number of water stations with plastic cups which were used once and then discarded.

Taking responsibility, we removed plastic cups from our water stations and supplied aluminium water bottles to all our colleagues and visiting clients.

This initiative was just a small step to driving a significant culture change within our organisation to aid the environment but also a real statement of owning responsibility within our work environment.
